

Valedictory function of Training Programme on *Extension Approaches for Climate Resilient Livestock Farming* organized at TEC, ICAR-IVRI, Pune on 10th Feb. 2017

Training and Education Centre, ICAR- Indian Veterinary Research Institute, Pune in collaboration with National Institute of Agricultural Extension Management (MANAGE), Hyderabad (TS) organized a 4-day training programme on *Extension Approaches for Climate Resilient Livestock Farming* from 7th to 10th February 2017 at State level Training Centre, Department of Animal Husbandry, Gokhale Nagar, Pune. Twenty five trainees including livestock development officers from Maharashtra State and the faculty from MPKV, Rahuri (MH) attended the course. Faculty from IVRI Izatnagar and Pune, MANAGE Hyderabad, NIASM Baramati, Department of Animal Husbandry and Milk cooperatives delivered lectures on various topics.

The valedictory function of the training programme was organized at the end of training on 10th February. The dignitaries present during the occasion were Dr RK Singh Director IVRI, Dr BP Mishra Joint Director (Res), Dr Triveni Dutt Joint Director (Acad), Dr KN Bhilegaonkar SIC TEC Pune, Dr Shahaji Phand Assistant Director MANAGE, and Dr (Mrs) PD Durge Principal State Level Training Centre. Dr (Mrs) Durge thanked IVRI and MANAGE for conducting the training programme in a very important topic and urged to extend full cooperation for similar training programmes organized by IVRI and MANAGE in the future. Dr RK Singh, Director IVRI distributed the training material to all the participants and urged the trainees to utilize the knowledge gained in the training programme for implementation at the field level. Dr Shahaji Phand, the coordinator of the programme thanked IVRI for generous help and informed that such collaborative programmes will be conducted in the future on different topics for the benefit of veterinary officers of the Region.
