Refresher Course
on
Ultrasonography in Dogs

16th to 20th November, 2026

All India Network Programme

on

Advanced Research Project on Canines (ARPC)

Course objectives and Participants

The course is aimed at imparting practical knowledge regarding ultrasound examination techniques in dogs. The course is specially designed for the practicing veterinarians of government and non-government organizations with minimum qualification of B.V.Sc. & A.H.

Course Fee

The participants will not be charged any course fee, but their sponsoring department/ organization or they themselves will have to bear the cost of travel, boarding and lodging.

Boarding and Lodging

Due to unavailability of the accommodation at the Institute Guest House, the participants will have to arrange boarding and lodging, on their own.

Course Contents

The course will cover the basics of ultrasound image formation, basic knobology and image optimization, patient preparation and abdominal ultrasonographic protocols, ultrasonographic appearance of abdomino-pelvic organs in different affections, pregnancy diagnosis, ultrasound artifacts, basics of Doppler ultrasonographic image optimization, recording and interpretation etc.

How to apply

Interested candidates may apply by filling their details in the Google Form through the below mentioned link. Selection of the participants will be at the sole discretion of the Course Coordinator.
