

## MGMG Awareness Programme Conducted at Bohit Village

**Bohit Village, 02 June 2026:** Under the *Mera Gaon Meri Gaurav (MGMG) Programme*, Team 10 of ICAR-IVRI conducted an awareness programme in Bohit village on 02 June 2026 to promote scientific agricultural practices and strengthen farmer-scientist interactions.

The programme was organized by Dr. R. S. Suman, Dr. R. Raguvaran, Dr. Sagar Chand, and Dr. M. B. Reddy. A total of 24 farmers, including 7 farm women, actively participated in the programme.

During the interaction, the scientists discussed various aspects of sustainable agriculture, improved crop production technologies, balanced use of fertilizers, soil health management, and the adoption of scientific farming practices for enhancing productivity and farm income. The participants were encouraged to adopt modern agricultural techniques and make effective use of available agricultural resources.

The farmers actively engaged in the discussions and shared their field-level experiences and challenges. The team addressed their queries and provided practical recommendations for improving crop management and ensuring sustainable agricultural development.

The programme concluded with a positive response from the farming community, highlighting the importance of regular farmer-scientist interactions under the MGMG initiative for the dissemination of agricultural knowledge and rural development.
