

## **Guest lecture hosted by the Academic Hub, ICAR-IVRI, Bengaluru campus**

The academic hub, ICAR-IVRI, Bengaluru hosted a guest lecture on 18.12.2024 in the auditorium of IVRI, Bengaluru campus. Dr Anand Minajigi, an alumnus of ICAR-IVRI, currently working as Laboratory Head & Principal Scientist, Department of Neurology, Biogen Inc, Cambridge, USA was the distinguished speaker.

The program was chaired by Dr Pallab Chaudhuri, Joint Director, ICAR-IVRI, Bengaluru Campus. He welcomed the guest speaker Dr Anand Minajigi. Dr Minajigi presented on the theme 'Genetics-based drug discovery'. He shared his extensive experience and knowledge in the field of X-chromosomal inactivation and drug discovery with the faculty and students. He motivated the students to pursue their research and get good publications. Further, he underlined the importance of learning and developing new skills.

The lecture was attended by the scientists, PG and PhD students of various disciplines along with PG Diploma students. After the interaction, Dr K.N. Viswas, Associate Coordinator extended vote of thanks.
