

## **ICAR IVRI Japanese Encephalitis IgG and IgM ELISA kits transferred to APS Lifetech, Pune**

The technology transfer of two ELISA kits – Recombinant NS1 protein-based Indirect IgG ELISA for sero-surveillance of Japanese Encephalitis and Japanese Encephalitis IgM ELISA kit for swine was completed to APS Lifetech, Pune. The technology license agreement for transfer of the kits was signed between ICAR-IVRI, Izatnagar and APS Lifetech, Pune on 23<sup>rd</sup> May., 2023. The technology transfer was facilitated by Agrinnovate India (AgIn), ICAR. The hands-on training for transfer of technology to the representatives from APS Lifetech was held during June 4-13, 2023 at the Division of Veterinary Public Health, ICAR-IVRI, Izatnagar.

Handover of training certificates to personnel from APS Lifetech, Pune

Hands on training at Division of VPH, IVRI

Hands on training at Division of VPH, IVRI

The kits have been developed by a team of scientists led by Dr Himani Dhanze, Scientist (SS), VPH under the mentorship of Dr KN Bhilegaonkar, PS & Head, VPH.
